

LIST OF OUR PROJECTS IN POWER GENERATION SECTOR

Thermal Power Plant Weiher, Querscheid, Germany, 2000

Project: *Bertsch GmbH*

Description: Disassembly and assembly of pipelines and associated equipment from carbon and alloy steel for boilers.

Thermal Power Plant Neufahrn, Eching, Germany, 2003

Project:

Description: Assembling of the pipelines and associated equipment from carbon and alloy steels..

Biomass Boiler Plant, Bielefeld and Kassel, Germany, 2004

Project:

Description: Assembling pipelines and associated equipment from carbon and alloy steel.

Waste Incineration Plant, Herne, Germany, 2004

Project: *Degussa AG*

Description: Assembling of the pipelines and associated equipment from carbon and alloy steel.

Thermal Power Plant, Kakanj, Bosnia and Herzegovina, 2004/2005

Project: *Elektroprivreda BiH*

Description: Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.

Biofuel Heating Plant, Großaitingen, Germany, 2005

Project:

Description: Assembly of piping systems and associated equipment from carbon and alloy steel.

Biomass Boiler Plant, Stuttgart-Mühlhausen, Germany, 2005

Project:

Description: Assembly of piping systems and associated equipment from carbon and alloy.

Biomass Boiler Plant, Altenstadt, Germany, 2005

Project:

Description: Mechanical disassembly of cyclone and water vaporizer of boiler plant. Assembly of piping and steam overheater.

Biofuel Heating Plant, Schwäbisch Hall, Germany, 2006/2007**Project:** *Bertsch GmbH***Description:** Assembly of piping systems and associated equipment from carbon and alloy steel equipment and apparatus used for process in the chemical industry.**Thermal Power Plant, Vieshalm, Belgium, 2006/2007****Project:** *Vieshalm & CIE***Description:** Fabrication and assembly of boiler piping.**Waste Incineration Plant Wörth, Germany, 2006/2007****Project:** *Bertsch GmbH***Description:** Fabrication and assembly of boiler plant pipelines.**Thermal Power Plant, Andernach, Germany, 2008/2009****Project:** *IHKW Andernach GmbH***Description:** Fabrication and assembly of boiler piping.**Waste Incineration Plant, Mannheim, Germany, 2008/2009****Project:** *MHKW Mannheim GmbH***Description:** Fabrication and assembly of pipelines and associated construction.**Nuclear Power Plant Olkiluoto 3, Finland, 2008/2009****Project:** *Siemens AG Erlangen***Description:** Fabrication and assembly of pipelines and assembly, associated constructions and supports (power line to the turbines, connection of turbines and reactor, lowering the reactor pressure).**Thermal Power Plant HKW Mitte, Braunschweig, Germany, 2009/2010****Project:** *Bertsch GmbH***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant RDK-8, Karlsruhe, Germany, 2010 - 2012****Project:** *Alstom Power Systems GmbH***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.

Waste Incineration Plant, KVA Forsthaus, Bern, Switzerland 2011**Project:** *Alstom Power Systems GmbH***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Mehrum, Hohenhameln, Germany, 2012****Project:** *Balke Dürr GmbH***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Duisburg-Huckingen, Duisburg, Germany, 2012****Project:** *RWE AG***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Lünen, Lünen, Germany, 2012****Project:** *Evonik AG***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Heyden, Petershagen, Germany, 2012****Project:** *EON AG***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Herne, Herne, Germany, 2012****Project:** *STEAG AG***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Thermal Power Plant KW Wilhelmshaven, Wilhelmshaven, Germany, 2012****Project:** *EON AG***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Recovery Plant Finnjord, Finnsnes, Norway, 2012****Project:** *MAN Diesel&Turbo AG***Description:** Assembly of pipelines, associated construction and supports for turbines

Power Plant Eon Kraftwerk Heyden, Petershagen, Germany, 2012**Project:** *Eon Kraftwerk Heyden***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.**Coking Plant, HKM Duisburg, Germany 2012/2013****Project:** *Uhde GmbH***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment for different parts of coking plant.**Heizkraftwerk Stadtwerke Schwabisch Hall, Germany, 2012/2013****Project:** *HKW Stadtwerke***Description:** Fabrication and assembly of pipelines, associated construction and supports, as well as assembly of process equipment.
